Graphic Dimensions

ADDING A NEW DIMENSION TO BUSINESS PRINTING

INNOVATIVE TECHNOLOGY • DISTRIBUTOR FOCUSED • EXCEPTIONAL SERVICE • PRIVATELY HELD

GEORGIA | KENTUCKY | NEW HAMPSHIRE

WELCOME TO
GRAPHIC DIMENSIONS

TABLE OF CONTENTS

Thank you for your interest in Graphic Dimensions! We are a privately held, full service trade manufacturer specializing in business documents of all types, including stationery, envelopes, financial documents and security printing. We operate 3 (Georgia, Kentucky, New Hampshire) manufacturing facilities. Throughout this kit we will highlight our products, strengths and capabilities.

At Graphic Dimensions, we are committed to consistent growth and the growth of our distributor partners. We achieve this growth year after year by exceeding the quality and service expectations of our customers on every order. We continue to invest in our industry by expanding our manufacturing base and introducing new products and technology to be a more valuable partner for our customers.

Thank you again for your interest in Graphic Dimensions. We look forward to working with you on your next project.

Sincerely,

Arthur F. Scammell

DOCUMENT SECURITY

Document fraud and counterfeiting are major problems for businesses of all sizes. Graphic Dimensions offers a wide range of document security features to combat document fraud, alterations and counterfeiting. Most businesses focus on protecting their checks and negotiable documents, however, document security features should be considered for a wide range of printed documents such as; grade reports and transcripts, prescription pads and sheets, gift certificates and coupons, confidential financial reports, human resource forms, legal documents, and so much more.

Graphic Dimensions recommends layering a variety of security features within critical documents. We also recommend utilizing both printed and paper security features.

PAPER SECURITY OPTIONS

	FLUORESCENT FIBERS	CHEMICAL REACTIVE	TONER ADHESION	VISIBLE FIBERS	BASKETWEAVE PATTERN	WATERMARK ARTIFICIAL	WATERMARK SINGLE TONE	WATERMARK MULTI TONE
24# MOCR PLUS	✓	✓						
24# SECURITY	✓	✓	✓					
24# GHOST SECURITY	✓	✓	✓			✓		
24# BASKETWEAVE SAFETY	✓	✓	✓		✓	✓		
24# ECONOMY WATERMARK	✓	✓	✓				✓	
24# PLATINUM WATERMARK	✓	✓	✓	✓				✓

Basketweave safety colors: Blue, green, yellow, pink, and gray.
Single Tone – Watermark image is lighter than the surrounding paper.
Multi Tone – Watermark image combines dark, light and shaded tones.

PAPER SECURITY DEFINITIONS

FLUORESCENT FIBERS - Yellow Fibers are visible only when check is exposed to a black light.
CHEMICAL REACTIVITY - Check paper will stain if exposed to chemical solvents or bleach.
TONER ADHESION - Special coating on paper to prevent the lifting or removal of laser printer toner.
ARTIFICIAL WATERMARK - This mark is printed using opaque ink and cannot be duplicated by a copier or scanner.
BASKETWEAVE SAFETY - This pattern is printed on both sides of the sheet and makes cut & paste forgery much more difficult.
VISIBLE FIBERS - Visible Fibers are added to the paper when it is manufactured and can't be duplicated.
TRUE FOURDRINIER WATERMARK - A multi-tone watermark is pressed into the paper at the mill and is visible from either side when held to light.

PRINT SECURITY OPTIONS

VOID PANTOGRAPH - The word VOID images when copied or scanned and is positioned per Check21 regulations.
PRISMATIC PRINTING - A special technique where a check background is printed in two or more colors. This is extremely difficult to duplicate.
SECURITY BACK PRINTING - Original Document wording disappears when copied or scanned.
WARNING BORDERS - Indicates that specific security features are protecting the check.
GHOST WATERMARK - Hold at an angle to view artificial watermark.
THERMOCHROMIC INK - Security ink that fades when rubbed or exposed to heat.
MICRO PRINTING - Type is readable under magnifcation - unreadable when copied or scanned.
COIN REACTIVE INKS - Special ink that turns grey when rubbed with a coin.
BLEED THROUGH NUMBERING - MICR and red Arabic numbers bleed through the back of the sheet.
PADLOCK ICON - Identifies and defines the multiple security features included in the document.

28 Lines on the front with additional lines and currency and coin totals on the back.
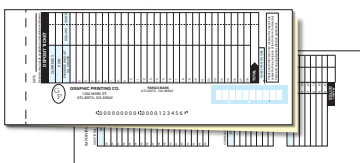

Security Bag Friendly Deposit Book
Product ID – SDB
Currency totals and 23 lines on the front with additional lines on the back.

We also offer **QuickBooks 908CM** and **Peachtree 902CM** deposit tickets!

SECURITY PRESCRIPTION PAPER

SECURESCRIPT™

By Graphic Dimensions

• Exceeds Federal CMS Guidelines
• 2 Levels of Security
• 2 Background Colors; 072 Blue or 342 Green
• 2 Standard Formats -
  Sheeted: 8½" X 11", 11" X 17"
  Padded: 4-1/4" X 5-1/2" horizontal or vertical
• Custom Formats are Available

STANDARD - 7 SECURITY FEATURES

Standard Security Features Include:
Security Background: The word "VOID" appears when copied.
Erasure Protection: Security background will expose attempts to alter.
Backprinting: Lists the security features contained in this paper.
Microprinting: The SecureScript™ border can only be read when magnified, will become unreadable when copied.
Security Watermark: The SecureScript™ ghost watermark can be viewed when held at an angle.
Coin Reactive Ink: The SecureScript™ watermark turns gray when rubbed with a coin.
Thermochromic Ink: Magenta ink on the back will fade or disappear when rubbed or exposed to heat.

SUPERIOR - 10 SECURITY FEATURES

Contains Standard Security Features Plus:
Chemical Reactivity: The paper will reveal a blue or black stain when treated with bleach, oxidizers, polar and non-polar solvents.
Fluorescent Fibers: Yellow fluorescent fibers are embedded in the sheet and are only visible when exposed to a blacklight.
Toner Adhesion: The paper contains a special coating on both sides to prevent "lifting" or "removal" of laser printed toner.

MEDICAID PRESCRIPTION PAPER REQUIREMENTS

CMS currently requires all Medicaid Prescriptions to be printed on Tamper Resistant paper. States have the option to add or customize their respective requirements. SecureScript™ provides a Tamper Resistant paper that exceeds CMS Standards for most states. If you have any questions regarding a specific state requirement, call us or check with your local or state governments.

CMS STANDARDS			STANDARD	SUPERIOR
CMS GROUP 1: PREVENTS COPYING OF BLANK OR COMPLETED PRESCRIPTIONS		VOID PANTOGRAPH	✓	✓
		PRINTED WATERMARKS	✓	✓

		INVISIBLE FIBERS		✓

FULL COLOR PRINTING

We can deliver multi-color and process color on uncoated stock in continuous, cut sheet and unit set formats.

Popular products include:

- Direct Mail Inserts
- College Transcripts
- Flyers
- Sell Sheets
- Fund Raising Literature
- Church Bulletins
- Newsletters
- Menus
- Place Mats
- Coupons
- Banking PIN Number Notices
- Credit Card Applications
- Postcards
- Subscription Renewals

UNIT SETS

While some products are moving to cut sheet and automated electronic formats, unit sets are still a viable and popular product. Unit Sets are multiple part forms with a common glued stub on one side that holds the set together. These sets are ideal for hand and typewritten applications.

Popular products include:

- Checks
- Deposit Books
- Restaurant Guest Checks
- Purchase Orders
- Claim Forms
- Daily Logs
- Invoices
- Receipts
- Inventory Tags
- Bills of Lading
- Time Sheets
- Statements
- Valet Tickets
- Parking Violations
- Human Resource Forms
- Expense Reports
- Florist Forms
- Landscape Forms
- Contractor Forms
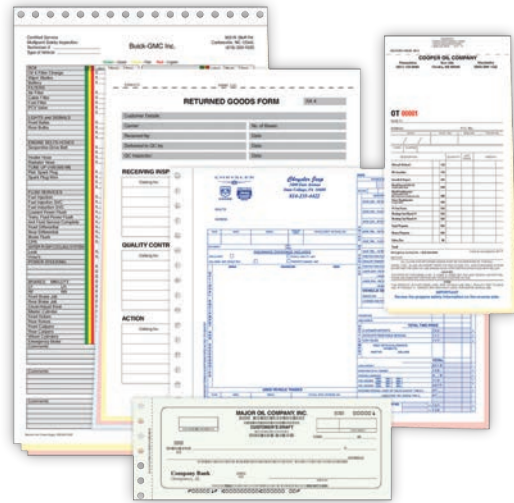

ADDITIONAL NOTES:

Unit Sets can be bound for any application into books for use as sales books, parking tickets, or deposit books. Wraparound cover construction is also available.

PRINT SHOP PRODUCTS

We also produce a broad range of general Print Shop products including:

- Edge Glued/ Fan-a-part Carbonless Sets
- Commercial Printed Sheets (Uncoated)
- Memo Pads
- Prescription Pads

Features:

- Offset Printing 1-4 Colors
- Scoring, Perforating, Numbering, Folding & Collating
- Free Composition
- Professional Packaging
- Accurate Estimating
- Email/Fax Order Acknowledgments
- Prompt Invoicing w/Samples
- Online Reordering
